Penrith Town Council are setting up a new Youth Advisory Panel

Penrith Town Council are engaging with young people in Penrith since they are the future of our town. We want to enable and encourage them to have a real say, on their own terms, about the things that affect them.

The Town Council is, therefore, supporting and resourcing the development of a *Penrith Youth Advisory Panel* with and for young people aged 14-25 years old. The young people will be responsible for the development and direction of their panel whilst three of our Town Councillors will offer help and support.

An important benefit for the Town Council is that we will better understand the needs, hopes and aspirations of Penrith's younger generation and this will have a positive influence on our decision-making.

Come along and find out more at our open event, which will take place just after Penrith Sparkle on Saturday 30th November at Unit 2, 19-24 Friargate CA11 7XR between 5.30 and 8.00pm. Tell us how you would like to see the Panel develop and find out how you and other young people can get involved. Refreshments will be available.
