

Penrith Town Council

WINTER NEWSLETTER

End of Year Review 2020

MERRY CHRISTMAS

&

**A HAPPY NEW YEAR FROM
PENRITH TOWN COUNCIL**

Message from the Mayor

Councillor Doug Lawson Mayor of Penrith

Looking back over 2020 and forward to 2021

During 2020, our mental and physical resilience has been sorely tested, and Penrith, similar to other towns all over the world, has suffered the impact of COVID culturally, socially and economically.

However, there have been achievements and moments of light. Throughout the pandemic, the Town Council has worked with others involved in the Eden Resilience Group to help alleviate problems in Penrith.

We have worked in close partnership to keep vital services running, to co-ordinate local volunteers and provide support to vulnerable people, such as shopping and prescription collections.

Our website and social media have continuously informed the community to help address concerns.

Encouragement has been given through local networks to seek much needed personal support and friendship, especially for those living in isolation. Craft bags, the idea of Town Councillor, Nicola Hawkins, were distributed to primary school children who did not have access to such things at home while home schooling. The project was jointly funded by Penrith Town Council, the Eden Local Committee, Cumbria Community Fund CVD-19 grant and Barnardos. The bags were delivered by volunteers from the Fellrunner Community Transport Service.

Children in town were asked to enter a competition to design a cover for the bag. Judged by local artist Karen McDougall, the 8 winners ranged from age 5 to age 9. My wife and I also supported the project by providing signed books to the winners. In addition, the youngsters received a Mayor's Certificate with their book.

If you would like me to support your event or make a presentation, please contact the office. I am happy to participate using video conferencing platforms.

The Town Council funded resources to encourage outdoor play with children during COVID, including 'Tiny Worlds and Mini Dens,' 'Nature Paints and Prints' and 'Magical Mobiles.'

Information from Government was forwarded swiftly to businesses and residents. Some businesses were able to operate online and deliver food and drink locally. Working with partners, we were able to promote 'think, shop and buy local.' To encourage shopping locally, we have worked with others to lobby successfully to retain free car parking in Penrith.

Sadly, our weekend of VE celebrations had to be cancelled. However, we were able to set up a WW2 Community Memories section on our website, complete with recorded interviews, photos and booklets.

Importantly, we have devised a strategy for addressing Climate Change and making Penrith a Carbon Neutral Town by 2030. Community engagement using our new 'Dialogue' Platform is being used to encourage ideas through conversations online.

Work has progressed on developing an Arts and Cultural Strategy over the next 5 years.

In addition, we assisted the 'Fairhill' Community Group to raise funds for a new play park with inclusive play equipment. The Town Council managed the tender and installation.

The Council achieved the Local Council Award Scheme and received a 'Quality Award,' demonstrating that we have all the documentation and information in place for good governance, effective community engagement and council improvement.

Without a doubt, the town has continued to look beautiful because of the efforts of all the good-hearted community groups, organisations and people in Penrith.

Pride in the Penrith community has helped to build community spirit during this massively worrying time in our lives. A film was commissioned by the Town Council and shared widely tracked the work of the Community Gardeners and other volunteers in town.

Their achievements gained a number of 'Certificates of Recognition' from RHS Britain in Bloom.

We continue the important work to address Climate Change and look forward to starting our projects in 2021.

Throughout the pandemic, we have worked together with others in the community to support new ways of working, socialising, shopping, trading, and living.

In 2021, with renewed vigour, we will continue our efforts to open and support Penrith in a COVID safe way.

Message from the Deputy Mayor

Councillor Scott Jackson Deputy Mayor of Penrith

Throughout most of 2020, we have all had to safeguard each other against COVID-19. However, the virus is taking its toll. Our sincere sympathies go to all those who have lost loved ones in the pandemic as well as those who are still suffering long term effects.

Everyone has had to adapt and find new ways of living life day to day. It has often been hard or even impossible to visit members of our families who live in other areas of the countries.

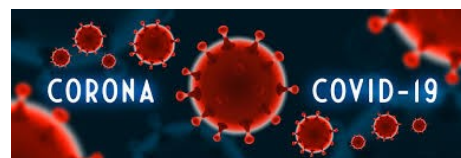

Our businesses have had to adapt to new ways of working. Supporting our local economy is really important and we have encouraged shoppers to 'stay local and shop local' in order to give a boost to the town's shops, hospitality and leisure establishments.

Earlier in 2020, we donated £3,000 to Penrith Foodbank and we are in contact with other groups in Penrith and Eden to keep vital services running where they are most needed.

Despite COVID-19, the town's volunteer gardeners have done a fantastic job throughout 2020, caring for their existing projects as well as developing innovative new ideas, albeit always at a safe social distance.

We look forward in anticipation that 2021 will be kinder to all of us; and we will continue to work with our partners, local groups and people in the local community to make a difference to our town in the year ahead.

Working with others to make a difference in Penrith

The unprecedented times experienced by all of us during the continuing COVID-19 pandemic has called for co-ordinated local action. The response from everyone during 2020 has been incredible.

Throughout the past year, different tiers of Government have provided advice and information on staying safe.

In March, the Eden Resilience Group worked with many groups to provide emergency support and the Town Council operated a help line from April through to the end of summer, working with volunteers from Fell Runner to support the vulnerable and deliver pre-paid food and prescriptions.

Information provided by the Chamber of Trade was made available on the Penrith Chamber of Trade website, the weekly Cumbria County Council COVID-19 Directory and via the Town Council website and social media platforms.

Many local organisations, local businesses and volunteers have also been involved in helping to co-ordinate support for vulnerable people.

We would like to say a huge thank you to all our partners and everyone who has supported friends and family, those who have volunteered and everyone who has managed work while still looking after and home-schooling children.

While vaccination is on the horizon it will remain important to stringently follow the simple rules 'Hands, face and Space.

Shop Local

Shop local to support local businesses and the local community has been the key message during the pandemic.

Detailed information about individual local businesses can be found on the 'Discover Penrith' Facebook page. Advice and details of how to volunteer, how to find the right advice and help plus signposting to key local information is signposted from our digital media platforms.

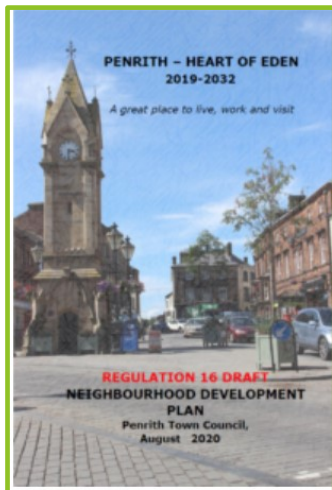

Parking

Earlier in 2020, the Town Council worked with stakeholders to assist and promote the re-opening of the town and supported a range of measures across the Town to allow for social distancing. Visitors to Penrith were encouraged to cycle, walk, or if arriving by car, visitors were signposted to park in the nearest available car park.

The Town Council, Penrith Chamber of Trade and the Two Business Improvement Districts lobbied successfully to retain free car parking in Penrith. We are pleased that the District Council continued to provide free off street car parking until the end of December.

Following two years of hard work and three public consultations, Penrith Town Council approved the draft Neighbourhood Development Plan at its meeting on 23rd September 2020.

The Plan has been developed by the Neighbourhood Plan Group from key issues for Penrith raised by the public during three previous public consultations. Members also agreed to the reinsertion of a number of green spaces and sports, leisure and recreation facilities which it had been suggested could be removed. The plan covers a number of objectives relating to Sustainable Development, Housing quality, type and mix, Greenspaces, Culture and Leisure, Wellbeing, Town Centre Car Parking, Traffic Management and the Town Centre.

The completed draft plan was made available on our website before it was passed to Eden District Council who were tasked with carrying out a further statutory consultation.

Consultation on the Regulation 16 Consultation was carried out by Eden District Council. Local people were invited to comment on the content of the Neighbourhood Development Plan for 6 weeks from Wednesday 23rd September until Wednesday 4th November. The plan has been developed from three previous public consultations taking into account the comments made by residents and businesses.

While COVID caused a few delays in the process, further progress will be made in early 2021. when an independent Planning Inspector will be appointed to jointly examine the plan.

'Penrith and Eden Wanderland' is now part of the National 'Window Wanderland' project, which started in 2015. Everyone in the country can join in and local people are inspired to transform their windows into magical scenes that can be seen by day and/or night. Imaginative, fun images are created using paper, glue, anything recyclable.

A grant from the Town Council and other organisations helped to support the decorations over the Christmas period and as a continuation Eden Valley Artistic Network (EVAN) encouraged local people to post imaginative images on their Facebook Pages.

A selection is copied below,

PENRITH IN BLOOM

Town Council Officers engage with participating groups and regularly update the Penrith in Bloom social media pages which publicises what's happening and keeps everyone up to speed with 'in bloom' developments. The Town Council also provides grant funding and/or Officer support to individuals and groups. In addition, Town Council Officers organise the Cumbria and Britain in Bloom applications for awards, co-ordinate arrangements for judging and compile the 'Portfolio', which uses text and images to describe the local projects.

Following the town's prestigious 'Gold' and other awards in 2019, Penrith was selected as a 2020 finalist in the RHS Britain in Bloom competition in the 'Large Town' Category. Due to the spread of COVID-19, the judging for that competition was sadly cancelled as was the Cumbria in Bloom Competition.

However, a film was commissioned by Penrith Town Council and follows some of the amazing efforts of volunteers and others in town – working albeit at a safe distance - to keep Penrith blooming despite COVID-19. As the interviewees in the film indicate, this has been an exceptionally difficult year for everyone.

Despite all the challenges, the town has been enhanced by the beautiful beds and planters, lovingly tended by the indomitable Garden of Eden Community Gardeners. Work at the train station has been admired by passengers arriving at or and leaving the station.

Penrith Train Station, 2020

The film captured Penrith's increasingly strong community spirit, volunteer determination and peoples' genuine love for the town and one another. Care for the environment was central too. If you watch the film, you may feel the raw thread of emotion that runs throughout as well as the notion of working together to get things done and make a difference.

To celebrate VE Day, the Great Dockray/Angel Lane Volunteer Gardeners created a number of poppy themed displays.

Poppy display, Angel Lane

Great Dockray 'Tribute to the fallen'

Red poppies for the Fallen and purple poppies for the many horses who died

St Catherine's School, with the help of volunteers, are encouraging youngsters to grow and learn about different varieties of apples as well as tending other plants.

'Katy Apple'. St Catherine's School.

The Town Council is very proud of everyone involved in achieving awards, from the wonderful Community Gardeners to nurseries and schools as well as residents in town, who have grown beautiful flowers and plants in their own gardens.

Inspired by the community gardener's philosophy, one particularly community minded individual has developed her own small patch of garden and has encouraged others on her street to grow and enjoy fruit and vegetables as well as beautiful flowers. The volunteer also set up a Give and take box which operated throughout the year.

Team CHW 'Take what you Need,
Give what you can'

The kind of generosity led by a volunteer on one street in Penrith is to be admired and can, hopefully, be emulated by others in 2021. (See Section on Community Resource Kit)

In 2020, gardening volunteers received a great many awards including the overall Cumbria wide 'Outstanding Award' for everything they have done over what has been a very difficult year.

RHS Britain in Bloom also awarded the Community Gardeners with a number of Certificates, one a General Certificate of Recognition, and other awards for 'Inspiring Others,' Friends of Penrith Station,' 'Sharing Your Know-How,' and 'Feeding Your Community.'

In addition, an Advent Star Award was given to the Community Gardeners from Penrith Chamber of Trade for work around town. Great Dockray and Angel Lane were also given an award for creative work there.

Section of the Train Station
Display

As we look forward to 2021, Penrith's entries for 'in Bloom' might be bigger and better, but 2020 has been particularly memorable because of all the Covid-19 barriers and the way in which the good people of Penrith have come together, overcome the challenges and made a difference.

While problems still exist, this kind of working together for no reason other than to benefit the local community is priceless. It helps to make Penrith a really great place to live, work in and visit.

The Town Council looks forward to 2021 and the opportunity to support the town's businesses, wonderful volunteers and householders who want to be involved and encourages everyone with a garden, a window box or a few pots to take part in 'Penrith in Bloom.'

Peace Garden - Ullswater Community College

Beginning in 2020, a Community Garden is being developed in a formerly derelict area of common ground at Ullswater Community College.

The project was supported by teachers working with local volunteers and members of Stomping Ground, a non-profit organisation offering creative arts, outdoor workshops and 'Forest School' developments.

"Big up the folks offering their time n skills and thanks to Penrith Town Council for their support. We're aiming to create allotment spaces here in the future too." (Gem, Stomping Ground)

The Town Council provided support and funding for a tarpaulin used as a shelter in the Community Garden.

Volunteers are DBS checked and fully insured. COVID safety measures are in place.

Sessions in the community gardens encouraged young people how to use natural tools to make their own art materials. Messy paint and pigments, clay and nature printing techniques, design a T-shirt for an outdoor fashion show, make mud selfies, and create art in the trees using found objects.

Challenging, messy and fun!!!

The Town Council is developing and implementing a 5-year Arts and Cultural Strategy for Penrith which will be influenced by our existing and approved strategies and the Penrith Neighbourhood Development Plan.

Various different engagement methods have been used to gather insights and help develop the strategy.

The information gathered in a variety of different ways will feed into the development of a 5 year strategy so that it accurately reflects what is needed and wanted in Penrith.

Community Resource Toolkit

Reacting to requests and a perceived need for community resources, we have set up a Community Resource Kit. The kit provides ideas and support for small groups of local groups to get together and build the assets close to them in ways that make a difference to their quality of life.

<https://www.penrithtowncouncil.co.uk/wp-content/uploads/2020/10/V3Workingtogether-to-make-a-difference.pdf>

The Resource Kit is available to read or print on the Town Council Website. It offers starter ideas, which we hope will support residents in Penrith and help them build on the good things already happening in their own street and in the surrounding area.

Penrith A Carbon

Neutral Town

In May 2019, Penrith Town Council declared a Climate and Ecological Emergency and has developed the first stage of a strategy, which is based on the vision that by 2030 Penrith will be carbon neutral. Our key partners have helped us develop the Councils strategy to make Penrith a Carbon Neutral Town.

Penrith Climate Change Action Group (PECCAN) is an informal inclusive community networking group including members of the public, members of local groups and several Town Councillors. The group meet quarterly to discuss issues related to Climate Change and share information and best practise.

Anyone is welcome to attend.

During 2021, the Town Council will be employing a Sustainability Officer to engage the community and develop projects and action plans.

Fairhill Playing Field

The Town Council in partnership with the Fairhill Community Group secured funding of £70,000 to make improvements to Fairhill Playing Field during 2020.

The funding for improvements have been made possible by the award of grants from organisations including Cumbria County Council, Eden District Council, Cumbria Waste Management Environmental Trust, the Hadfield Trust, Cumbria Community Foundation, the National Lottery Community Fund, the Fairhill Community Group and financial support from Penrith Town Council.

Connecting paths within the play area were included in the plans to make it easy for users to navigate to each of the new pieces of play equipment. In addition, after the play area was in place, the Town Council ensured easy access by installing a new tarmac path connecting the play area to the entrance at Salkeld Road.

The new equipment integrates with existing play facilities within one fenced area and provides play opportunities for toddlers up to younger teenagers. Safety has always been a key consideration since the field was open to the highway.

To provide a more secure entrance, fencing and a new gate has been installed at the entrance to Salkeld Road.

In addition, new seating adjacent to the play area provides an opportunity for residents and users of the field and play area to rest and take in the views across to the Lakeland fells.

The playing field now has a new inclusive play area which includes swings, a multi-climbing unit, see-saw, rotating swing, carousel, play panels and is installed on a new rubber wet pour surface. This is complimented by new footways, seating and entrance improvements.

What's Happening in 2021?

Coronation Gardens

Penrith Town Council learnt in 2020 that Coronation Gardens was not going to be transferred as part of the Transfer of Assets project, with Eden District Council retaining the area under its ownership and management. Penrith Town Council has since

nominated Coronation Garden as an Asset of Community Value, which was approved and included in the list of Assets of Community Value maintained by Eden District Council. The Council has since nominated both the Town Hall and Penrith Museum as Assets of Community Value and a decision is pending.

In October 2020, with some of the planting supported by the community gardeners, 1000 crocus bulbs were paid for and planted in Coronation Gardens by members of Penrith Rotary Club.

Autumn leaves were kept at bay by the Community Gardeners who also put down grass seeds.

Photo courtesy Joan Robinson, Community Gardener

Brentfield Way Bus Shelter

Members of the Scaws Tenants and Residents Association (STRA) raised the issue that there was formerly a bus shelter on Brentfield Way (close to the junction with Meadow Croft/Oak Road), which was removed at some point in the past. The Council was informed that the site was a popular location for residents in the estate and surrounding streets to catch the 646 into Town.

Brentfield Way Bus Shelter

The members of the Association asked Penrith Town Council to replace the shelter at that location. In working together with the Town Council, not only have the residents got approval for a new shelter they have identified a more suitable location for its replacement.

New Benches

The Town Council was asked by members of the public to place new benches in Norfolk Road and Lowther Street. Having written and consulted with local residents and speaking to the Police, the Council has provided new benches in these locations.

Thacka Beck

The Town Council have now acquired Thacka Beck land at the back of Penrith Hospital. The land is an area approx. 6 acres and is used for informal recreation, dog walking and connects pedestrians between the A686 and Tynefield Drive. During early 2021 Northern Gas will be carrying out some underground pipeline works as part of wider town infrastructure improvements.

The Town Council will be bringing a plan together to outline how we might look improve the area for continued informal recreation purposes. The Council will also be looking at how the land may support its Climate Change ambitions.

Have Your Say

Penrith Town Council Officers and Councillors work as a team to deliver high quality services to the Penrith Community. We hope to get it right most of the time and would love to hear from you when we do. If we do sometimes get things wrong, or you feel our services are generally not up to scratch, then let us know about that too, and we will do all we can to resolve problems as quickly as possible. Our resolve is to 'make a difference' to Penrith. We would love to hear from you so that we can learn from the things you feel we get wrong as well as the things you think we get right.

We also ran a short survey online to help us streamline information procedures and help us select the community engagement methods you prefer or that best suit your needs. The majority of responses indicate that it's important for you to be better informed about the different roles of Cumbria County Council, Eden District Council and Penrith Town Council.

All those who answered the survey also believed it was important for the Town Council to engage with the community and find out what needs are and what would best benefit the town. Most people indicated they would be willing to get involved, work with the Council and offer their views on a regular basis. In terms of the different ways to engage with the community, people indicated on-line surveys (81.82%) as their top preference, with public meetings (54.55%), social media (36.66%), traditional paper surveys (36.36%), community advisory groups (27.27%), roundtable working groups (18.18%), workshops (9.09%) and focus group sessions (9.09%) coming next.

Youth Panel Survey to gather young people's views on Penrith

The Council's Youth Advisory Panel launched a survey prior to COVID-19 to gather young people's views on Penrith. The survey stayed open for six weeks and closed at the end of March, 2020 as COVID-19 was taking a hold.

There has been a delay due to the pandemic, however, it is hoped the result of the survey will feed into both our 'Climate Change' and 'Arts & Culture Strategy' strategies which will be taken forward in 2021.

Dialogue

We kickstarted use of our online Dialogue Platform by outlining a 'challenge' facing Penrith as a result of the Climate Emergency declared by the Town Council.

The goal of our challenge, titled 'How can we Learn locally about Climate Change Issues?' was to gather ideas on how we might be able to increase knowledge and understanding of how climate change affects us locally, what green projects will benefit the town, how we can all find out what's been or is being done already and how everyone can find out about our local environmental action groups.

We outlined two actions from our strategy to address the challenge. One idea was for a 'High Street Community Hub,' essentially a 'space' to act as a focal point and provide access to free resources, services, advise and support; and also offer practical support and advice about repairing, upcycling, community gardening and local projects.

The other idea we outlined in the Dialogue was 'Grow Nature Fund.' We were looking in particular for comments and new ideas for developing and funding local green projects.

The Dialogue remained open until 16th December 2020 at:

<https://yourideas.penrithtowncouncil.co.uk/>

The analysis will be produced in early 2021.

Additional Ways to Get Involved

You can also have a say and participate in other ways, for example, arranging to speak at Council Meetings.

You might feel that someone whose activities help to enrich the lives of Penrith residents deserves to be recognised. If so, please put their name forward for a Citizen Award (described below).

Our office is open to the public between 9.00am and 1.00pm Monday and Friday, so you can also pop in and speak to a if you need help or information or want to tell us about something.

We can also put you in touch with your Ward Councillor (see below) if you wish to discuss an issue or concern, or if you have an idea to improve the town.

Visiting the Town Council Office

Town Council Opening Hours

The Town Council office has been open for appointments since 2nd December 2020. Following government advice, we have implemented a flexible working system allowing our colleagues to work remotely and continue to support you through these unprecedented times. Staff who are able to work from home will continue to do so. Our officers are available for phone and video consultations.

As the safety of the Council's employees, partners, clients, and visitors remains our overriding priority and we are continually monitoring the situation closely and periodically update our guidance based on current recommendations from the UK Government, UK Public Health Bodies and World Health Organization (WHO)

Appointment only face-to-face meetings

To prevent the spread of COVID-19 and reduce the potential risk of exposure to our workforce and visitors, we are conducting a simple screening questionnaire. Your participation is important to help us take precautionary measures to protect you. We have a number of arrangements in place to make your visit as safe as possible

The limited opening of the Council Office is to give additional assistance only to customers who find it difficult to access our services online. If you would like an appointment at the Council Office, please consider the following guidance:

- When attending appointments, you must wear face coverings if possible. Council staff can also wear face coverings, but this is not essential.
- Before entering the Council Office, you will be asked to complete a health survey for Covid-19.
- If you are displaying any symptoms of COVID-19, are self-isolating or have had a positive test within the last seven days, you must not attend the office and the appointment will be rearranged.
- Customers must knock on the front main door and wait until the time of your appointment, when a member of staff will then allow you access.
- There will be hand sanitiser in reception and wherever possible the appointment will be held in reception with staff members communicating through a glass partition.
- If your appointment requires considerable staff input, you will be allocated a meeting room that will comply with social distancing.

MEETINGS 2021

We are currently holding our meetings by video conferencing. Please go to our website for the agenda pack and meeting information.

Every formal meeting of the Council is open to the press and public.

The Council provides opportunity for members of the public to make statements or ask questions.

Public Participation appears at the beginning of the meeting:

- Prior to the meeting, please write to the Town Clerk informing the Council that you wish to speak.
- You will be allowed to speak at the discretion of the Chair.
- Your name will not be recorded in the minutes of the meeting.
- The Chair will invite you to stand/sit in location where you can be clearly heard.
- You can speak for a maximum of 3 minutes per meeting.
- Supplementary questions will be allowed for a maximum of 2 minutes.
- The Council may respond to you at the meeting or may write to you.
- You must not interrupt speakers or speak during the member's debate.
- You must not hold conversations with other members of the public during meetings.
- Members of the public who become disruptive during the meeting will be asked by the Chair to leave.

MEETING DATES

FULL COUNCIL

- 25 January 2021
- 8 February 2021
- 15 March 2021 (Annual Town Meeting)
